

Responsive & Mobile Websites Level 01 Course

Project 02 – Responsive Landing Page

Course Value: 30%

Due: End of day Friday, November 29, 2013

Instructions:

- 1) Re-code your landing page so that it is a responsive web page
 - a. Your landing page should be usable at the following sizes at a minimum:
 - i. Smartphone – portrait (320px wide)
 - ii. Smartphone – landscape (480px wide)
 - iii. Tablet – portrait (768px wide)
 - iv. Tablet – landscape(1024px wide)
 - v. Desktop – widths wider than 1024px
 - b. Ideally try making your landing page fully flexible and responsive so that it is adaptable to any current or future devices
 - c. Feel free to re-design the look of your landing page, but this is optional, the more important part of this project is making your landing page responsive
- 2) Replace your existing landing page with the new responsive landing page

Marking Criteria:

- | | |
|--|-----------------|
| - All instructions followed | 05 marks |
| - Landing page usable across the minimum five device sizes | 05 marks |
